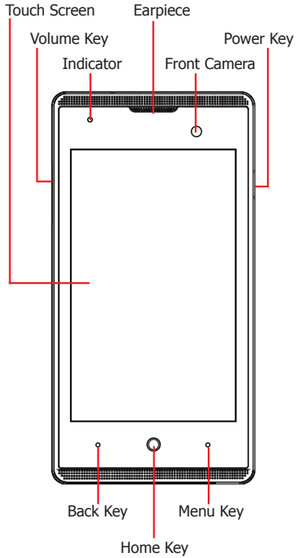
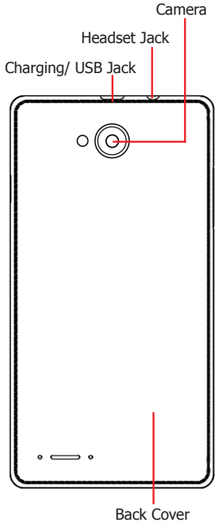
Quick Start Guide

Getting to Know Your Phone





Power Key

- Press and hold to power on, select phone modes, turn on/off airplane mode, or power off.
- Press to turn off or on the screen display.

Home Key

- Touch to return to the home screen from any application or screen.

Menu Key

- Touch to get the options for the current screen.
- Touch and hold to see recently used applications.

Back Key

- Touch to go to the previous screen.

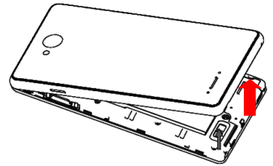
Volume Key

- Press or hold to turn the volume up or down.

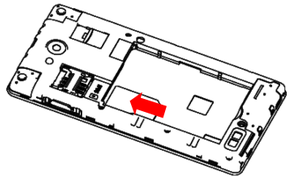
Starting Up

Switch off your phone before installing or replacing the battery or the SIM card. The microSDHC™ card is optional and can be installed and removed while the phone is turned on. Unmount the microSDHC card before removing it.

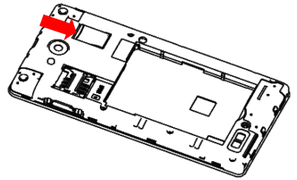
1. Place your finger in the slot at the bottom of the back cover to lift and remove the cover.



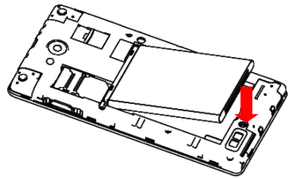
2. Hold the SIM card with its cut corner oriented as shown and slip it into the card holder.



3. Hold your microSDHC card with the metal contacts facing down and slide it into the microSDHC card slot.



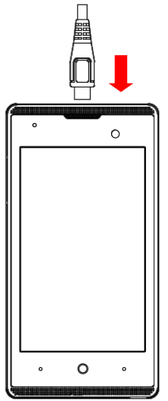
4. Align the connectors on the phone and the battery and slide the battery into the compartment. Then gently press the battery down until it is secured.



5. Align the back cover with the back of the phone and press the cover back into place. Make sure all the tabs are secure and there are no gaps around the cover.

Charging the Battery

1. Connect the adapter to the charging jack. Ensure that the adapter is inserted with the correct orientation. Do not force the connector into the charging jack.



2. Connect the charger to a standard AC power outlet.
3. Disconnect the charger when the battery is fully charged.

Powering On/Off Your Phone

Make sure the battery is charged before powering on.

- Press and hold the **Power Key** to turn on your phone.
- To turn it off, press and hold the **Power Key** to open the options menu. Touch **Power off** > **OK**.

Product Safety Information

	Do not use hand-held while driving
	For body-worn operation maintain a separation of 15 mm
	Small parts may cause a choking hazard
	This device may produce a loud sound
	Avoid contact with magnetic media
	Keep away from pacemakers and other personal medical devices
	Switch off when instructed in hospitals and medical facilities
	Switch off when instructed in aircrafts and airports
	Switch off in explosive environments

	Do not use while re-fuelling
	This device may produce a bright or flashing light
	Do not dispose of it in a fire
	To prevent possible hearing damage, do not listen at high volume levels for long periods.
	Avoid Extreme Temperatures
	Avoid any contact with liquid, keep it dry
	Do not attempt to disassemble
	Only use approved accessories
	Do not rely on this device for emergency communications

EC DECLARATION OF CONFORMITY

CE

It is hereby declared that following designated product:

Product Type: WCDMA/GSM(GPRS) Dual-Mode Digital Mobile Phone

Model No: ZTE Blade C320/ Blade C320

Product Description: WCDMA/GSM (GPRS) Dual-Mode Digital Mobile Phone

Complies with the essential protection requirements of Directives on Radio and Telecommunication Terminal Equipment (Directive 1999/5/EC). Restriction of the Certain Hazardous Substances in electrical and electronic equipment (Directive 2011/65/EU), Eco-design Requirements for Energy-Related Products (Directive 2009/125/EC) and their amendments.

This declaration applies to all specimens manufactured identical to the samples submitted for testing/evaluation.

Assessment of compliance of the product with the requirements relating to Directive 1999/5/EC was performed by

PHOENIX TESTLAB GmbH (Notified Body No.0700) and assessment of compliance of the product with the requirements relating to Directive 2011/65/EU was performed by Intertek Testing Services Ltd., Shanghai and Directive 2009/125/EC was performed by Shenzhen Huatongwei International Inspection Co.,Ltd. The assessments were based on the following regulations and standards:
